

# Power Strips

## Description

Tripp Lite's line of multiple-outlet Power Strips are ideal for mounting inside rack enclosures, on walls, workbenches, or in laboratory environments. These strips are rated for 120 volts and come equipped with 15 or 20 amp resettable circuit breaker (depending on model). Models are available in 2, 3, 4, 5, and 6 ft. lengths and all have a 15 ft. cord with plug styles varying by model. UL and cUL listed, these vertical power strips are constructed of high-strength extruded aluminum housing, include mounting tabs and feature a lighted/transparent on/off switch cover to prevent accidental turn-off. Lifetime product replacement warranty. Tripp Lite warrants its products to be free from defects in materials and workmanship for varying periods from the initial date of purchase.

## Key Buying Points

- Power strip outlets available in various configurations—including 15 & 20 amp models; 15 ft. cord
- Available with 15 or 20 amp re-settable circuit breakers, depending on unit
- Lighted power switch enclosed within a clear switch guard to prevent accidental turn-off
- Sturdy metal housing stands up to demanding work environments
- Lifetime Tripp Lite product replacement warranty

## Typical Applications

Multi-outlet power distribution unit is the ideal means of powering multiple loads in 19-inch rackmount, wallmount and undercounter applications, such as inter-networking, PC systems, telecommunications, audio/video, security, sound reinforcement and more. Ideal for distribution of UPS, generator or commercially derived AC power to protected equipment.
